

Accredited ADHD Workshop

Evidence-Based Assessment and Management of ADHD in Primary Care

Earn 3 Mainpro+ credits per hour in this interactive online workshop!

Are you starting to diagnose and manage ADHD and are interested in attending CADDRA's introductory workshop?

Our popular three-hour accredited workshop will be offered on Saturday, March 20 and again on Saturday, May 1. The case-based workshop will improve your confidence in screening, diagnosing, and optimizing care for patients with ADHD, including those with comorbidities. Each workshop is open to all, independent of location.

"The workshop gave me a framework to approach my ADHD patients systematically. I have more confidence now to advise and assess ADHD patients instead of writing a referral."

"This program has given me increased confidence in being able to assess for ADHD and start management"

Choose a Workshop:
